AGREE WITH

DONALD TRUMP

CLIMATE CHANGE IS A HOAX.

PRESIDENT TRUMP CAN'T HIDE FROM HIS DENIALS...

...AND WE CAN'T HIDE FROM THEIR CONSEQUENCES.

Trump thinks he – not scientists and experts – knows best.¹

President Trump puts every American at risk because he doesn't believe what scientists and experts say. Not about climate change and, sadly, not about the coronavirus.

We're already paying a high price for Trump's denial.

Trump's refusal to listen to science has already created disastrous consequences for Americans. Today we face the devastation of the coronavirus; tomorrow we'll face the massive destruction caused by climate change, including wildfires, droughts, and hurricanes.²

Trump called both climate change and the coronavirus a "hoax."

Despite scientific warnings about the threat posed by the coronavirus, President Trump called it a "hoax," just like he called climate change a "hoax" despite warnings from experts, including from NASA and the Department of Defense.³
