Our Earth Is Worth Voting For

IT'S TIME TO
LISTEN TO SCIENCE.

IF 2020 HAS TAUGHT US ANYTHING, IT'S THAT IT'S TIME TO LISTEN TO SCIENCE

– unless you're SUSAN COLLINS.

We know that climate change is real – but Susan Collins cast the *deciding vote to confirm a vocal climate change denier* to the Federal Energy Regulatory Commission, which approves fossil fuel projects.¹

We know that oil companies are making huge profits – but *Susan Collins voted for tax breaks for big oil* that resulted in multiple oil companies paying nothing in federal taxes.²

We know the coronavirus is killing Americans – but *Susan Collins said President Trump “did a lot that was right”* when it came to virus response.³

THIS ELECTION, TELL SUSAN COLLINS
IT'S TIME TO LISTEN TO SCIENCE.
